# GENERAL INFORMATION

Founder : Khaled Al-Jariri (Abu Hafez)

Assistant Manager: MA. Farouq Khaled Al-Jariri

## Scope of Activities:

As a second generation family partnership, ALFAJER continues to value the foundations that were laid down in 1971.

- Reliability
- Integrity
- Quality of workmanship

As a respected manufacture and installer, we take pride in all stages of our work from the design of a door system to the fitting and commissioning, ensuring that the same high standards are maintained throughout. Our consistency in workmanship and reliability of on time attendance has made ALFAJER the preferred supplier for many of the JORDANIAN emergency services including Fire Service, NHS, INDUSTRIAL FACTORIES. We use our trade experience of 40 years to help advise and supply customers with the right product and service for the right application.

Our after care department provides an hour nation wide repair service and annual maintenance contracts providing extended warranties, helping to prolong the working life of each door system and reduce repair costs.

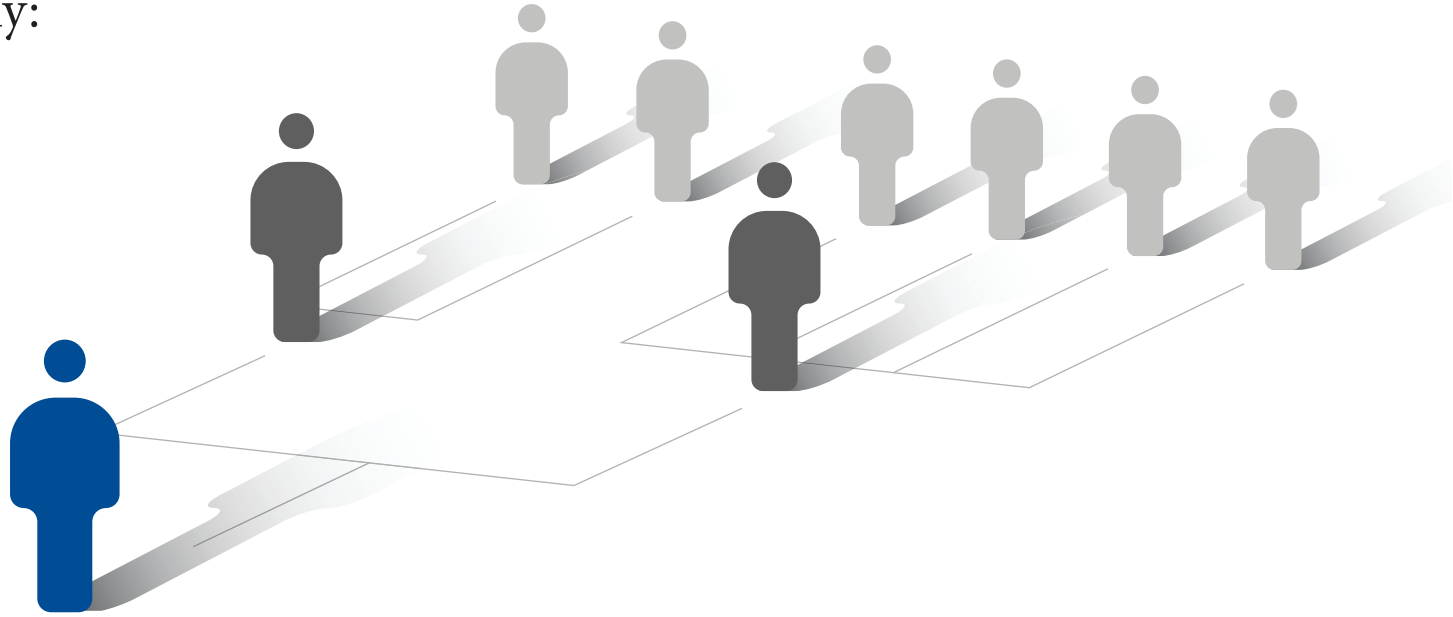

## Our Main scope of works :

- Metal works .
- Doors technology light steel structure .
- Rolling shutter door .
- Gate Automation

# HEALTH, SAFETY AND ENVIRONMENT

In keeping with our general safety policy we have issued a separate health, safety and Environmental policy.

The company requires all of its employees to conduct all task and activities in complete conformance with the international & local health and safety Standards and regulations resulting in protecting themselves and of all other who may be affected by their actions. In addition, we insure to educate our employees and Make them aware of all the safety and environmental issues and standards so as to Conduct themselves in such a way as to adopt prevention measures where applicable, While enhance the quality of our environment.

Each new employee has to attend an induction course to familiarize them with the Principles of our policy and to ingrain them with the required and updated safety standard Codes and procedures.

Daily toolbox meetings are held on the project site and at all of our central facility and lay down yards to ensure that HSE is a common element of working practices.

The topic discussed relates to the specific of that daily activity, Tasks on hand and to introduce any new topics which can reinforce awareness and enhance the safety.

ALFAJER

# QA/QC PROGRAM

ALFAJER WORKSHOPS is committed to seeking continuous improvement in all areas which will achieve the highest quality standards.

Quality means understanding our client's requirements and making every effort to achieve surpass them, while at the same time complying with our standards and
policies.

Our goal is to satisfy our client and to comply not only with the contractual requirements but also to provide excellence in engineering practice.

## The primary objectives are:

- To enhance and build on our excellent record in the industrial construction & building industry.
- To produce the product, which the client desires in the most economical and professional way.
- To complete all projects on timely basis and within set budget.
- To reduce the incidence of non-conformances.
- To exploit our accumulated knowledge and experience.

The Quality Assurance and Quality Control plan is ready for submittal at any time requested, and the same will be tailored to each client standards and specific requirement.
